# NETWORK TARIFFS 1 SEPTEMBER 2019

We offer the following services according to the network tariffs: We distribute electricity from power plants to customers, we measure electricity consumption, we are responsible for the round-the-clock outage service of network operations, and we take care of network maintenance.

## Good to know about electricity taxes

Customers pay electricity tax in conjunction with distribution fees. The tax consists of excise duty on electricity and a strategic stockpile fee. All customers automatically belong to Tax Class 1, unless otherwise notified. Industrial enterprises, mining and greenhouse farms operating in the manufacturing industry can belong to Tax Class 2. Companies belonging to Tax Class 2 must submit a written certificate of their operations to the network company. Tax Class 1: 2.79372 cent/kWh, including VAT 24%. Tax Class 2: 0.87172 cent/kWh, including VAT 24%.

The user is entitled to terminate the network contract according to the Terms of Network Service.

## DISTRIBUTION TARIFFS VAT 24%

The tariff product can be changed to another once a year.

### GENERAL ELECTRICITY

This tariff suits a Customer who mainly uses electricity during the daytime. In this case, usually the form of heating is other than electricity. The tariff remains the same day and night throughout the year.

#### Distribution

Excluding electricity tax	5.21 cent/kWh
Tax Class 1	8.00 cent/kWh

#### Plus a basic fee according to the main fuse size:

1 x 25 A* & 1 x 35 A*	11.08 €/month
3 x 25 A**	19.67 €/month
3 x 35 A	33.96 €/month
3 x 50 A	63.69 €/month
3 x 63 A	85.08 €/month
3 x 80 A	131.44 €/month
3 x 100 A	154.98 €/month

\* Single-phase premises with at least 3 premises in one connection (apartment and terraced houses). All other singlephase premises belong to the 3 x 25A main fuse group.

\*\* All three-phase premises smaller than 3 x 25A belong to the 3 x 25A main fuse group.

## NIGHT-TIME ELECTRICITY

This tariff suits a Customer who has electric heating or electricity storage-heating devices. The distribution fee is lower during night-time.

Distribution	Day	Night	Plus a basic fee according to the main fuse size:	
	7am to 10pm	10pm to 7am		
Excluding electricity tax	4.01 cent/kWh	2.45 cent/kWh	3 x 25 A	34.17 €/month
Tax Class 1	6.80 cent/kWh	5.24 cent/kWh	3 x 35 A	57.06 €/month
			3 x 50 A	91.80 €/month
			3 x 63 A	135.17 €/month
			3 x 80 A	203.66 €/month
			3 x 100 A	247.24 €/month

## SEASONAL ELECTRICITY

This tariff suits a Customer, who can supplement electric heating with other alternatives during wintertime. The distribution fee is lower all summer and during nights and Sundays in the wintertime.

Distribution	Winter weekdays 1 Nov-31 Mar	All other times	Plus a basic fee according to the main fuse size:	
	Mon-Sat 7am to 10pm			
Excluding electricity tax	4.92 cent/kWh	2.45 cent/kWh	3 x 25 A	40.65 €/month
Tax Class 1	7.71 cent/kWh	5.24 cent/kWh	3 x 35 A	74.17 €/month
			3 x 50 A	109.59 €/month
			3 x 63 A	150.83 €/month
			3 x 80 A	227.56 €/month
			3 x 100 A	266.83 €/month

## TEMPORARY DISTRIBUTION

Suited to temporary use of electricity, for example a occasions and events.

Distribution	Plus a basic fee	
Excluding electricity tax	19.29 cent/kWh	19.67 €/month
Tax Class 1	22.08 cent/kWh	

## Maintenance fees of the electricity connection (VAT 24 %)

will be charged if the Customer wants to disconnect the electricity supply and keep the connection contract valid, or if the Customer has not made a contract for electricity supply within 3 months after the completion of electricity connection. The fee is 16.11 €/month for connections of max 63 A. For connections larger than 63 A and for 0.4 kV demand connections the maintenance fee is 136.25 €/month and for 20 kV it is 453.94 €/month.

## PRODUCTION DISRIBUTION VAT 0%

	Transmission €/MWh	Own consumption €/MWh*	
		Winter weekdays Dec-Feb	
		Mon-Fri 7-22	All other times
Distribution network, production < 1 MVA	0.7**	0.0	0.0
Distribution network, production ≥ 1 MVA	0.7	8.8	2.5

\* Own consumption payments are determined according to the valid Fingrid price list. By 'own consumption' is meant the proportion of produced energy consumed behind the connection point and which is not supplied to the network company. Own consumption does not mean internal electricity use by the power plant.

\*\* If the power plant 's nominal power is smaller than 50 kVA, no distribution fee will be charged.

## SERVICE FEES VAT 24 %

Installation, removal or inspection of metering device (main fuse 3 x 63A or smaller)	160 €
Installation, removal or inspection of metering device (main fuse 3 x 80A or larger)	250 €
Installation of extra meters to multimeter center (starting from 4th meter)	55 €
Service visit	125 €
Payment reminder or notice of disconnection (VAT 0%)	5 €
Disconnection or reconnection of electricity supply	55 €
Investigation report at customer's request	40 €/h
Certificate of the use of electricity	10 €
Report of electricity consumption for the energy certificate	25 €/object
Control visit due to a fault in the customer's devices	125 €
Fitter's hourly fees	65 €/h
Quick cabel display	220 €
